Pawleys Island

Pawleys Island is an Atlantic coast barrier island at the southern end of The Grand Strand. The island lies off the Waccamaw Neck, a long, narrow peninsula between the ocean and the Waccamaw River. The island is unspoiled and secluded with miles of private beaches. But, it is only 30 minutes south of Myrtle Beach with all the shows and shopping anyone could want.

It is believed that the Spanish first settled the area in 1526. However, that colony failed and the early settlers left. The first English settlers arrived in 1670 and by 1721 the colonial government granted the English residents' petition to found a new parish.

Father and son Georgetown planters, Thomas Lynch, Sr. and Thomas Lynch, Jr., signed the Declaration of Independence. During the final years of the American Revolution, Georgetown was the important port for supplying General Nathanael Greene's army. Francis Marion (the Swamp Fox) led many guerrilla actions in this vicinity.

Regional Tour

This year's tour is of Brookgreen Gardens which is a National Historic Landmark and garden museum. Its mission is to preserve the native flora and fauna and display objects of art within that natural setting. The property was once a rice plantation and the rice fields and slave quarters can still be seen. Members and seniors will walk through the museum's collection of figurative sculpture by American artists as well as the garden's zoo containing animals native to the area.

The tour includes transportation and admission to Brookgreen Gardens. A box lunch may be purchased if desired (the box lunch will be picked up at Brookgreen Gardens – if you don't go on the tour you won't be able to get your box lunch). Otherwise, lunch is on your own at the resort or nearby.
